

Restricted Materials and Permitting – Table of Contents

Pesticide Use Enforcement Program Standards Compendium Overview	1
Mission.....	1
Role	1
About the Pesticide Use Enforcement Program Standards Compendium	1
Description of Each of the Compendium’s Eight Volumes.....	2

Chapter 1 – California’s Restricted Materials Permitting Program

Chapter 2 – Restricted Use Pesticides and Restricted Materials

Chapter 3 – Environmental Impact Report Functional Equivalency

Overview.....	3-1
Section 3.1: History of the Pesticide Regulatory Program’s Environmental Impact Report Functional Equivalency	3-2
Section 3.2: How Requirements of Public Resources Code section 21080.5 are Addressed by the Program.....	3-7
Section 3.3: Specific Procedural Requirements of Public Resources Code section 21080.5.....	3-10
Section 3.4: Scope of Certified Activities.....	3-16

Chapter 4 – Private Applicator Certification

Chapter 5 – Permits and Exemptions

Chapter 6 – Permit Requirements

Overview.....	6-1
Section 6.1: General Permit Requirements.....	6-2
Section 6.2: Agricultural Use Restricted Materials Permit Requirements	6-6
Section 6.3: Non-Agricultural Use Restricted Materials Permit Requirements	6-9
Section 6.4: Amending the Restricted Materials Permit.....	6-11

Chapter 7 – Permit Evaluations

Overview.....	7-1
Section 7.1: EIR Functional Equivalency Evaluation Requirements	7-2
Section 7.2: Evaluating the Permit.....	7-8
Section 7.3: Reviewing and Evaluating the Notice of Intent.....	7-12

Chapter 8 – (Pre-Application) Site Evaluations

Chapter 9 – Grounds for Refusal, Revocation, and Suspension

Continued on next page

Restricted Materials and Permitting – Table of Contents,

Continued

Chapter 10 – Due Process Related To Permits

Overview	10-1
Section 10.1: Due Process: When FAC section 11512.5 Procedures Apply	10-2
Section 10.2: Due Process Procedures under FAC section 11512.5	10-5

Chapter 11 – Interested Party Permit Review Request

Chapter 12 – Appeals to the Director for Additional Review

Overview	12-1
Section 12.1: Appeal to the Director by Permittees – FAC section 11512.5	12-2
Section 12.2: Appeal to the Director by Others – FAC section 14009(b) Implemented by 3 CCR section 6442	12-3

Appendix A – Glossary

Overview	A-1
Section A.1: Acronyms	A-2
Section A.2: Definitions	A-3
Section A.3: Web Resources	A-7

Appendix B – California Restricted Materials Requirements

Overview	B-1
Section B.1: California Restricted Materials Requirements	B-3
Section B.2: Requisitos Para Materiales Restringidos en California	B-5
Section B.3: Alternatives Worksheet Applicant Information & Instructions	B-7
Section B.4: Alternatives Considered Template - Restricted Materials Permit	B-9
Section B.5: Hoja de Trabajo de Alternativas	B-11
Section B.6: Alternativas Consideradas / Permiso de Materiales Restringidos	B-13

Appendix C – General Drift Minimization

Appendix D – Recommended Permit Conditions for Rice Pesticides

Overview	D-1
Section D.1: Instructions to County Agricultural Commissioners on Rice Pesticide Permit Issuance	D-2
Section D.2: Data Reporting Guidelines for the Rice Pesticide Program	D-10
Section D.3: General Water-Holding	D-13
Section D.4: Phenoxy/Dicamba Herbicides	D-14
Section D.5: Thiobencarb	D-17

Appendix E – Ground Water Protection Approved Alternative Management Practices

Appendix F – Tribufos (DEF, Folex) Recommended Permit Conditions

Continued on next page

Restricted Materials and Permitting – Table of Contents,

Continued

Appendix G – Commodity Fumigation

Overview	G-1
Section G.1: Recommended Permit Conditions for Methyl Bromide and Sulfuryl Fluoride Commodity Fumigation	G-2
Section G.2: Recommended Permit Conditions for Tarped Potting Soil Fumigation	G-7

Appendix H – Aluminum and Magnesium Phosphide for Burrowing Rodent Control Recommended Permit Conditions

Appendix I – Methyl Bromide Recommended Permit Conditions for Soil Fumigation within a Greenhouse

Appendix J – 1,3-Dichloropropene (Field Fumigant) Recommended Permit Conditions

Overview	J-1
Section J.1: Background on Use Limitations	J-3
Section J.2: Conditions for All Application Methods	J-4
Section J.3: Tables	J-6

Appendix K – Chloropicrin and Chloropicrin in Combination with Other Products (Field Fumigant) Recommended Permit Conditions

Overview	K-1
General application information	K-3
Buffer zones for chloropicrin-only products and chloropicrin/1,3-D combinations	K-6
Buffer zones for methyl bromide and chloropicrin combinations	K-7
Minimum buffer zone distances	K-14
Tree hole limitations	K-15
Overlapping buffer zones	K-16
Tarp perforation and removal	K-22
Emergency preparedness and response measures	K-22
Emergency response plan	K-22
Buffer zone tables	K-23

Appendix L – Metam Sodium, Metam Potassium, and Dazomet Field Soil Fumigation Recommended Permit Conditions

Overview	L-1
Application Method 1: Dazomet Field Soil Fumigation Recommended Permit Conditions	
Application Method 2: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Drench Applications	

Continued on next page

Restricted Materials and Permitting – Table of Contents,

Continued

Appendix L – Metam Sodium, Metam Potassium, and Dazomet Field Soil Fumigation Recommended Permit Conditions, Continued

- Application Method 3: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Drip Applications
- Application Method 4: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Flood Applications
- Application Method 5: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Power Mulcher and Rotary Tiller (Rototiller) Applications
- Application Method 6: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Rod Bar Applications
- Application Method 7: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Shank Applications
- Application Method 8: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Spray Blade with Soil Cap Applications
- Application Method 9: Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Sprinkler Applications

Appendix M – Methyl Bromide Field Fumigation Recommended Permit Conditions

Appendix N – Volatile Organic Compounds

- Overview..... N-1
- Section N.1: Federal Nonattainment Areas Affected by California Regulations to Reduce Emissions from Fumigant Pesticides..... N-3
- Section N.2: Field Fumigation Methods Allowed, by Geographic Area..... N-5

Appendix O – Chlorpyrifos Interim Recommended Permit Conditions
